OPAA! CORE VALUES

Act in the **best interest** of the students, schools and communities we serve.

Be honest in everything we do.

Have a **passion** to serve others.

Commit to continuous improvement.

Welcome Back to School!

As your district's foodservice partner, Opaa! Food Management is committed to serving safe and nutritious meals when school resumes this Fall.

We place safety as our top priority in order to protect our students, staff, and workers. Since Covid-19, we have trained our staff on various topics such as proper handwashing, proper way to wear gloves, wearing masks/ face coverings during prep and serving, 4 step disinfect/ sanitizing process, as well as social distancing in our food preparation centers.

We will work in conjunction with your school district to assess the wellness status of our staff before they enter the building each day and have measures in place should an employee become symptomatic to COVID-19.

We are also working with local health authorities to meet the requirements within your county.

All meals will be freshly prepared in the kitchen and safely packaged in containers with lids.

This will promote an additional layer of food safety, as it limits contact exposure between foodservice staff and our guests. Opaa! is working with district administration to determine how meals are served, whether in the classroom, cafeteria, or meals that are picked up curbside or delivery. Your local Opaa! foodservice staff is prepared to deliver on our promise to serve safe, nutritious meals.

If you have any questions regarding the child nutrition program, please feel free to reach out to your local Director of Nutrition Services.
